

## GRANT SUMMARY

Completed Grant Summaries are made available to the public on the State Water Resources Control Board's (SWRCB) website at <http://www.waterboards.ca.gov/funding/grantinfo.html>

Use the tab and arrow keys to move through the form. If field is not applicable, please put N/A in field.

**Date filled out:** April 14, 2006

<b>Grant Information:</b> Please use complete phrases/sentences. Fields will expand as you type.				
1. <b>Grant Agreement Number:</b> 05-229-550-0				
2. <b>Project Title:</b> Mattole Integrated Coastal Watershed Management Plan				
3. <b>Project Purpose – Problem Being Addressed:</b> California's coastal Mattole River watershed drains into the Pacific Ocean just north of the King Range National Conservation Area. The Mattole River is listed as impaired for sediment and temperature on California's Clean Water Act (CWA) 303(d) list. Historic land-uses including road construction and timber harvest have resulted in excessive sediment delivery to the mainstem Mattole, its tributaries, and estuary. The sediment delivered to the Pacific Ocean via Mattole River's upslope sediment sources impact two Critical Coastal Areas: the Mattole River (CCA #7) and the King Range National Conservation Area (CCA #8). The high levels of suspended sediment and elevated water temperature exacerbate water quality issues in the Mattole estuary. Through planning for sediment reduction and water quality and quantity management, the Mattole Integrated Coastal Watershed Management Plan will help guide future watershed restoration for the benefit of currently-impacted coastal resources.				
4. <b>Project Goals</b>				
a. <b>Short-term Goals:</b> The Mattole Integrated Coastal Watershed Management Plan, a product created as result of this project, will conform to IRWMP specifications to meet water quality and supply standards in the basin. This project will also plan future site-specific actions that will further basin-wide restoration, conservation, and water supply management for the benefit of coastal resources.				
b. <b>Long-term Goals:</b> This project will provide the technical background, data, and planning for future restoration work to be accomplished in the Mattole watershed. Future implementation of these projects will increase the quality of water leaving the Mattole watershed thereby lessening impacts on nearby coastal resources.				
5. <b>Project Location:</b> (lat/longs, watershed, etc.) Mattole River watershed				
a. <b>Physical Size of Project:</b> (miles, acres, sq. ft., etc.) 304 square miles				
b. <b>Counties Included in the Project:</b> Humboldt and Mendocino Counties				
c. <b>Legislative Districts:</b> (Assembly and Senate) Assembly District 1, Senate District 2				
6. <b>Which SWRCB program is funding this grant?</b> Please "X" box that applies.				
Prop 13	Prop 40	Prop 50	EPA 319(h)	Other
<b>Grant Contact:</b> Refers to Grant Project Director.				
<b>Name:</b> Jeremy Wheeler		<b>Job Title:</b> Executive Director		
<b>Organization:</b> Mattole Restoration Council		<b>Webpage Address:</b> <a href="http://www.mattole.org">www.mattole.org</a>		
<b>Address:</b> PO Box 160 Petrolia, CA., 95558-0160				
<b>Phone:</b> 707-629-3514		<b>Fax:</b> 707-629-3577		
<b>E-mail:</b> <a href="mailto:Jeremy@mattole.org">Jeremy@mattole.org</a>				

<b>Grant Time Frame:</b> Refers to the implementation period of the grant. <b>From :</b> January 2, 2006 <b>To:</b> March 1, 2009	
<b>Project Partner Information:</b> Name all agencies/groups involved with project. California Department of Fish and Game, Sanctuary Forest Inc., Salmonid Solutions, State Coastal Conservancy	
<b>Nutrient and Sediment Load Reduction Projection:</b> (If applicable) N/A	

Please provide a hard copy to your Grant Manager and an electronic copy to your Program Analyst for SWRCB website posting. All applicable fields are mandatory. Incomplete forms will be returned.
